Subject: Invitation to Attend Invited Experts Workshop on Formaldehyde

Dear Dr. Bahadori and Dr. Thayer,

I am assisting in the coordination of a 1 ½ day invited experts workshop of ~25 scientist in October 2017. The focus of the workshop will be to explore the formaldehyde science and discuss approaches for evaluating and integrating the available evidence to draw conclusions regarding human health cancer risk. Dr. Jim Swenberg and Dr. Ken Mundt have agreed to chair the workshop and we've extended invitations to a broad range of scientists from academia, industry and government. Given your activities on formaldehyde, you and your staff would be welcomed additions to the workshop and I'd like to discuss your interest and availability in participating. The workshop is tentatively planned to take place in Chapel Hill, NC and is targeted for October 10 - 11, 2017. I am working with the workshop chairs to confirm attendance to the workshop and would welcome the opportunity to discuss the tentative agenda topics and attendee list.

Feel free to give me a call (202-249-6707) or email (kimberly_white@americanchemistry.com) at your convenience to discuss further or let me know a good time to give you a call. Thank you for considering this invitation and I look forward to speaking with you.

Kind Regards,

Kimberly Wise White, Ph.D. | American Chemistry Council
